Your Personalized Profile

Getting started with VastraSahayak is simple and intuitive. Your profile is the key to unlocking truly personalized recommendations.

Input Your Details

Share essential information like your name, age, weight, and gender. These foundational details help us create a basic understanding of your unique profile.

Understanding Your Body Type

Beyond basic demographics, VastraSahayak uses advanced analysis to determine your specific body type, ensuring recommendations are tailored to perfection.

Detailed Body Measurements:

Provide your height, shoulder width, bust, waist, and hip measurements. This allows our algorithm to accurately identify your body shape.

Why This Matters?

Knowing your body type empowers you to choose silhouettes that accentuate your best features and provide the most comfortable fit.

The Magic of Color Theory

Discover how colors can transform your look. VastraSahayak incorporates Korean-inspired color theory to help you choose hues that truly make you shine.

Skin Tone Analysis

Our system helps identify your unique skin undertone, whether it's warm, cool, or neutral.

Korean Color Principles

Leveraging the subtle nuances of Korean color palettes to suggest what will best complement your complexion.

Glow with Confidence

Select colors that brighten your face, enhance your features, and make your skin appear more radiant.

Beyond the Basics: Advanced Preferences

Your style journey is unique. VastraSahayak allows you to refine your preferences, ensuring recommendations align with your personal taste and lifestyle.

1

Style Aesthetic

Choose from categories like minimalist, bohemian, casual, formal, sporty, or vintage.

2

Occasion Focus

Tell us if you're looking for everyday wear, special event outfits, work attire, or vacation clothes.

3

Comfort Level

Prioritize comfort, trendiness, or a balance of both in your clothing choices.

Your Personalized Wardrobe

Imagine a closet filled only with clothes that fit perfectly and make you feel incredible. VastraSahayak makes this a reality.
